Concentric Slave Cylinders with Release Bearings

Description and Features

C&H's Clutch Slave Cylinder effectively returns hydraulic pressure to the clutch system, restoring the ability to shift properly again. Engineered from reinforced nylon, cast iron or aluminum, all of our Slave Cylinders contain high quality EPDM rubber components for compatibility with brake fluid. Long-lasting service is ensured. .

The Concentric Slave Cylinder (available where applicable) is pre-filled and pre-bled for immediate service upon installation, saving time, money and labor

The Concentric Slave Cylinder (available where applicable) comes with the bearing and the disconnect tool for ease of repair

Rigorous quality control measures have been undertaken to ensure that this part conforms to product standards

Warranty

Our Concentric Slave Cylinder have been produced according to TS16949 system requirement strictly, the CSC must be passed 11 steps test

Piston sliding load

Return time of hydraulic system

Efficiency measurement

Rotating thermal durability test

Burst Test

Rotation test at low and high temperature

...

All of those test result are fit for the international standard.

The CSC have one-year or fifty thousand kilometers warranty.

Rich Products

By now, we can produce around 120 models Concentric Slave Cylinders with or without Throw Out Bearings, most of them equipped with quick assembly components.

Quick Delivery

We have stocks for most popular items, it is a fast delivery guarantee.

Important Note

The catalog is for customer reference using. Before start purchasing, had better consult us or supply detail application information for us.
